CHAPTER I. GENERAL

I.1. SCOPE OF APPLICATION OF THE REGULATION

The purpose these regulations is to regulate the organization and development of all WPT competitions. Competitions means all those that have been included in the official WPT calendar.

The simple fact of voluntarily being part of a WPT Competition will imply the express and voluntary submission to this Technical Regulation and the commitment to respect and abide by its provisions.

I.2. COMPETENCIES AND FUNCTIONAL BODIES WPT

WPT is responsible for the general control of all competitions included within its official competition calendar, as well as:

- Select competitions for inclusion in the official calendar.
- Schedule competitions.
- Being responsible for the resolution of any matter of dispute pertaining to the WPT.

The main WPT functional organs, which will control everything affecting WPT operation, are comprised of:

- **THE BOARD OF DIRECTORS.** Regulates the financial aspects and supervises the executive bodies.
- **THE DELEGATE COMMISSION (BOARD)** will be formed by the Player Board Representatives and by the Sports Director of WPT plus the same number of members of the organization (preferably from the sports area) as the number of components of the Players Commission. The powers of this Commission will be the supervision of the General Regulations, the monitoring of the modifications introduced in the competition, the execution of the Contract agreements and the elevation of the proposals deemed appropriate for the best development and growth of the Circuit. The agreements will be approved by simple majority and will bind both parties. In the event of a technical tie, a vote by the WPT Director General will be required to make the final decision.
- **THE DISCIPLINE COMMITTEE.** Disciplinary body that will apply and enforce the WPT Sports Discipline Regulations, judging in the first instance those infractions contained in the Sports Discipline Regulations that could be committed and imposing the corresponding sanctions. This will be a one-person committee. When an offense considered very serious occurs, the Discipline Committee will include the WPT members of the Delegate Commission.

- **THE APPEAL COMMITTEE.** Maximum disciplinary body, which will hear, in the second and last instance, the appeals filed against the agreements and decisions of the Sports Discipline Committee, under the provisions of the Sports Discipline Regulations and in application of principles of equity. In its composition, an odd number of members must always be observed, being able to be collegiate or one-person.

All the functional bodies of WPT will be subject to the provisions of the different regulations and rules applicable in WPT:

- Game Regulations.
- General regulations.
- Protocols.
- Sport Discipline Regulations.

As well as what is established and provided in the different contracts and agreements signed between the various parties involved.

WPT, will have the power to analyze and decide on any situation or incident not contemplated in these regulations, and which may be subject to their inclusion.

CHAPTER II. THE COMPETITIONS AND THE CALENDAR

II.1. NAME OF THE COMPETITIONS

WPT competitions must necessarily be named according to the following naming criteria:

The court will count with protective / security elements at its entrances. The same conditions should apply for the club's main court. In special cases, and in order to guarantee the celebration of the event, the Club's main court may not have an external exit, and may be either out-door or indoor, interchangeably.

The center and auxiliary court of the tournament will be called the official WPT courts.

II.7.9. VIDEO REVIEW

In all Tournaments where this system can be technically applied, each couple will have the right to request an official video review when a disagreement arouses over judgement call from the Chair Umpire. This replay may be requested from the quarterfinal round of the main men's and women's draws (in the event that the latter are played on the center court).

Only the Chair Umpire and / or the Umpire can see the replay in the area designated for this purpose. Once the video has been verified, the Chair Umpire will confirm or overturn the call on the court. This decision will be final and the game must be resumed immediately (10 seconds). The player can appeal no further. Otherwise, the application of the corresponding code of conduct will be at the discretion of the Chair Umpire. Procedure :

- Each couple will have the right to 2 replays per set, including the tie-break.
- The players can only request the replays that refer exclusively to a game point, never on an action related to the disciplinary rules.
- The couple must request a replay immediately after the dubious play occurs, stopping the point, if necessary, and not allowing the point to continue (unless it is immediately after a player has hit a ball). If this doubt occurs at the end of a game, the request must be immediate and never after 10 seconds.

Accounting system:

- o If the couple that requests the replay is NOT right, the use of the replay will be counted and the decision of the Chair Umpire will be upheld.
- o If the couple that requests the replay IS right, the use of the replay will not be counted and the decision of the Chair Judge will be rectified.
- o If the visualization is DOUBTFUL, the use of replay is not counted and the Chair Umpire will call a let. The decision as to whether it is dubious or not will depend only on the umpire. A couple can never view a replay.

Players must not leave the court while waiting for the video review, and must wait for the Umpire's decision on the court. While the players remain on - court their behavior must abide by de Code of Conduct. They may not leave the court to drink, eat, sit, or receive instructions.

When the 4 players disagree on a call that has been challenged, the Chair Umpire will wait 10 seconds before making a decision, unless one of the couples requests to see a review of the call. If the Chair Umpire considers it necessary, he may request a video review to clarify a call. If the 4 players agree, the Chair Umpire may abide by their decision, as long as the video review has not been completed, and has not ruled on it, in which case the decision will be final.

The Video Review system may be replaced at any time of the season, due to the appearance of new technologies.

II.8. THE PLAYERS.

II.8.1. SIGNING OF THE SERVICE PROVISION AGREEMENT

The best 100 players and the best 56 players in the WPT Ranking must sign the Contract for the Provision of Professional Services in writing.

II.8.2. REGULATION

All PLAYERS registered in a WPT Tournament, must observe and comply, at all times, with the rules, regulations, ethical codes, WPT Regulations and, in particular, those referring to the protection of intellectual and industrial property rights of WPT and uses of the same for the purposes of the proper celebration, management and coordination of tournaments and activities of the WPT Circuit in all its aspects, and especially the technical, graphic, organizational, communication and sanctioning regime.

All players, through their authorised representatives, will be informed of the modifications proposed by WPT in the Technical Competition Regulations and the General Disciplinary Competition Regulations fifteen (15) calendar days before being approved and will be valid for all purposes, being mandatory for all to abide by them.

II.8.3. BETTING

No WPT PLAYER may place bets on companies dedicated to the sports betting business within the sport of paddle tennis, either personally or through any channel or means whilst under contract with WPT and officially participate in the WPT Circuit. The foregoing can be extended to spouses and first degree relatives, although the Organization will take into account special situations that the PLAYER may have.

II.8.4. REGISTRATION

In order for a PLAYER to participate in a WPT tournament, they must formalize the registration request in a timely manner. Such requests must be made through the official website and / or WPT PLAYER APP, filling in the corresponding form. WPT will not accept those registrations that have not been made in a timely manner, nor will it be responsible for those that have not been received due to technical errors, beyond its control.

Participation in the tournaments included in the WPT calendar will be by invitation, with those that proceed in each Tournament being at the discretion of the organization, and WPT may reject the application for registration to all those couples it deems appropriate.

Regardless of the obligation on the part of the players to comply with the registration process, WPT will have the power to review the list of registered participants, 24 hours before the closing of the same, in order to ensure participation in the tournaments of the 20 best players and 8 best players in the Official WPT Ranking, evaluating the possibility of joining the list of registered players.

The PLAYER with the Contract for the Provision of Professional Services in force, shall not pay the inscription in the tournaments of the WPT Circuit. For the 2020 Season, WPT will charge the registration to the rest of PLAYERS who play the WPT tournaments that are not among the first 100 (men) and first 56 (women) of the WPT Ranking, although this measure will be reviewed annually and WPT may modify it for those PLAYERS who have not signed the corresponding contract. In any case, the conditions for the registration fees (procedures, cost, etc.) will be communicated to the players through the Player APP (tournament technical sheet).

The opening and closing dates of registration will be as follows:

Tournaments in Spain:

- Registration opening date: 15 days before the closing of the registration, always coinciding on Monday (unless previously indicated another date and / or WPT modify that date and announce it in the Player APP).
- Registration closing date: registration will be closed at 12:00 on the Tuesday of the week prior to the start of the final table of the competition, (unless previously indicated another time and / or date and / or WPT modify these conditions and announce them in the Player APP)
- Appeal and Draw Period: Once the registration is closed, a provisional list will be published with the registered couples. There will be a period of 24 hours (until Wednesday at 12.00 in the morning) for possible appeals. Once this term has ended and once the final couples registered for the tournament have been decided, there can be no appeal and the draw will proceed, unless, on the website, Player APP or official WPT calendar, another time is indicated and / or date. It will be WPT, through its Sports Department, who decides on any incident.

Tournaments outside of Spain:

The openings and closings of registration, and the date of the draw will be published and informed through the official website WPT and the APP of the PLAYER, with enough time in advance, and attending to the needs of the Calendar (trying to avoid overlapping dates).

Injuries: only for tournaments held outside of Spain in which the registration deadline is established more than three weeks before the start of the Final Draw, and in the event that one of the players of a couple already signed up and classified for the Final Draw, suffers an injury (once the

Preliminary Stage is over) that prevents him from playing the tournament, his partner may choose a new one according to the conditions established for the Individual Lucky Loser (See III.2.7. Lucky Loser)

A couple will not be allowed to change any of its players once the registration has been made. WPT will not allow a new registration of the players involved, except in special cases that will be analyzed by WPT and that the player must justify. These changes will only be authorized for the players affected by this circumstance.

Double Validation: players must sign up for tournaments through the usual channels (web / APP), and once this process has been carried out, each player of the couple will receive an email in which they will be able to confirm or reject registration (this process can also be done in the APP, in the “pending confirmations” section).

IMPORTANT: it is understood that all the inscriptions are accepted unless they are formally rejected (only in the case that one of the two players rejects the inscription can he sign up with another partner).

Once the registration is closed (with the exception of the aforementioned case of injury in Tournaments held outside of Spain), under no circumstances will a change or substitution of PLAYERS be allowed in couples. The players of a couple will remain the same throughout the Competition. Failure to comply with this rule will result in the immediate disqualification of the couple from the moment the irregularity is detected, without prejudice to the sanctions that the WPT Sports Discipline Committee deems appropriate.

II.8.5. PARTICIPATION IN OTHER TOURNAMENTS AND EXHIBITIONS:

All PLAYERS, linked or subscribed to the Service Provision Contract, without distinction of ranking, may only and exclusively play the following tournaments:

- Absolute Spanish Championship.
- Championship of Spain or other countries by Teams.
- European Championship.
- World Cup of Teams.

That is, a maximum and exclusive total of four (4) championships not organized by WPT for each year of the contract to which they are subscribed and without affecting the WPT Calendar.

The players classified from 1 to 20 and the players classified from 1 to 8 of the official WPT ranking will have the absolute exclusivity of participation in the Tournaments by WPT.

Players classified from the 21st position onwards in the male category and from the 9th position onwards in the female category will be able to play any tournament complying with the WPT rules, except for circuits that could be a direct competitor of the WPT. This authorization will be immediately without effect

in the event that the PLAYER in question reaches the position number 20 or higher for men or position number 8 or higher for women in the WPT Ranking.

For everything related to participation in other Tournaments, Exhibitions, Exclusivity, Clinic, etc., this Regulation will be accepted by those published and included in the PROCEDURES AND PROTOCOL - PLAYERS Regulations).

II.8.6. MEDICAL AND ANTI - DOPING CONTROLS

Submit to the medical, physical and / or doping tests that the Organization and other bodies with competence in the matter decide or have established.
- Communication. The PLAYER must notify the competent authority, and the Spanish Agency for the Protection of Health in Sports, of any medical, pharmacological or any other circumstance that requires obtaining a therapeutic use authorization. This authorization, or its denial, must be brought to the attention of WPT prior to the holding of any competition or tournament in which it will be used.
- Action protocol: The PLAYER is aware of and is informed that SPE, in agreement with the AEPS, may carry out doping controls in any competition or official tournament of each season of validity of this contract without notice and following strictly the Agency's action protocol, sole and exclusive responsible for this control, in favor of the protection of the health of the PLAYER.

II.8.7. HEALTH INSURANCE

- The PLAYER who participates in WPT must be duly insured during the entire time he is playing in the WPT Professional Circuit with coverage for any contingency, by way of example or limitation, medical assistance, temporary, total and absolute disability, invalidity, medical care, death, etc.... The insurance coverage must be subject at least to the conditions of temporary validity of this contract.
- The policy will be at the player's expense. It will be for the PLAYER to look for and bear the cost of the most suitable insurance that covers the above mentioned.
- The health policy must include, as a minimum, ordinary and emergency health and surgical care and hospitalization and ICU stay throughout the national territory.
- At the beginning of each sports year, and with the WPT competition calendar provided by the Organization, the PLAYER will provide the health policy signed for this purpose to the Sports Department .
- The PLAYER must comply with those obligations that according to Law are mandatory for the professional exercise of their sports activity, with Social Security, if applicable, or with the regime

that their situation requires.

II.8.8. TRAVELS

THE PLAYER will bear the cost of his / her trips, both inside and outside Spain, to participate in the WPT Circuit except for the Exhibitions and / or promotional tournaments, which will be borne by WPT.

WPT will collaborate actively with the eight (8) players of the preliminary who qualify at the last minute to play a Circuit tournament outside of Spain. WPT will make the best efforts in management and logistics in common agreement with the aforementioned players, although they will bear the cost of best traveling conditions achieved by WPT in the negotiations held with the different travel agencies.

II.9. GENERAL RULES FOR PLAYERS

II.9.1. PARTICIPATION AUTHORIZATION

Without prejudice to the provisions of section II.8., in any case, WPT may authorize a player to participate in a competition, even if he does not meet the requirements, if such decision benefits the development of WPT.

II.9.2. SCORING:

All matches will be played to the best of 3 sets with a tie-break in all of them and a Gold Point system (see II.9.3.). WPT, may change this competition format whenever it deems appropriate and communicating any with the corresponding time in advance.

II.9.3. GOLD POINT:

Starting in the 2020 season, the alternative scoring method included in the FIP Regulations, known as the Gold Point, will be implemented.

The FIP Regulations include:

The "no advantage" (gold point) may be used as an alternative scoring method when the score is deuce. This is a sudden death scenario and is used as a way of speeding up a match result. A game is scored as follows with the score of the server called first:

- no point - "zero".
- first point - "15".
- second point - "30".
- third point - "40".
- fourth point - "game".

If both couples have won three points each, the Umpire will call "no advantage" and a decisive point called the gold point will be played. The couple that rests will choose whether to rest the service on the right or the left side of the court. The couple that rests cannot change positions to rest the deciding point. The couple that wins the point wins the game. In mixed doubles matches however, the player who rests must be of the same sex as the server. The players who rest cannot change positions to rest a serve. (See PROCEDURES AND PROTOCOLS 2020 - COMPETITION)

II.9.4. INSTRUCTIONS:

The PLAYERS will not be allowed to receive instructions related to the game from their coach, one per couple except in the situations included in PROCEDURES AND PROTOCOLS 2020 - COACHES.

In any official competition, the participants must prove, when required to do so by the Chief Umpire, their identity, residence permit, and in general any other circumstance directly related to the competition, by presenting the appropriate credentials.

II.9.6. NO – SHOW OR UNJUSTIFIED WITHDRAWAL:

All those players who do not register or do not participate in the WPT competitions, in breach of the regulations or agreements adopted in the contract for the provision of professional services, without a justifying cause, will be sanctioned according to the provisions of the WPT Sports Discipline Regulations. WPT may require the presence in the tournament of the player who communicates his absence to pass a medical examination by personnel of the organization (doctor and / or physiotherapist).

II.9.7. JUSTIFICATION OF WITHDRAWAL OR WO:

If any of the PLAYERS is declared W.O., or if they communicate their withdrawal from the tournament once the draw has been made, they must justify their withdrawal within 48 hours. When the withdrawal is due to an injury / illness justified with a Medical Information Form, WPT may request the PLAYER to have the examination performed by a doctor appointed by the WPT itself, as long as this does not imply any expense for the PLAYER (the player will have to bear the cost of the trip to the tournament). If he does not proceed to justify his withdrawal, or the Disciplinary Committee considers that the reasons stated are not sufficient, the two players of the couple will be sanctioned, in accordance with the provisions of the WPT Sports Discipline Regulations. Only the player of the couple who withdraws will be sanctioned.

II.9.8. UNJUSTIFIED WITHDRAWAL:

If a couple or a player unjustifiably withdraws from a competition, the couple will lose all right to the prize and the tournament points that they had been awarded until then.

II.9.9. INJURY INTERIM:

A PLAYER in clear physical disadvantage as a consequence of accident or injury produced prior to the previous warm-up of a match, may not start said match, losing by W.O. and without the right to points (in any case, it will be for the WPT to decide whether the player is fit to play, once he / she has undergone medical assessment and evaluation by the Medical Team, and to authorize the player to play the match). If the couple affected by the aforementioned situation had qualified to participate in a certain round, having played a previous round, even if they lost by W.O., they will keep the right to the points obtained if they justify the withdrawal Medical Information Form. If the PLAYER participates in the match, he will be sanctioned, in accordance with the provisions of the WPT Sports Discipline Regulations.

Previous injuries: in the case of players who reappear after injury, and in order to guarantee a normal development of the competition, WPT may request that the Official Medical Team carry out a medical examination to determine the degree of recovery from the corresponding injury and the risks of a possible relapse. In the event that the Medical Team concludes (through medical examinations and assessment table) that the player is not in a position to return to the competition, WPT will decide whether accepting or not the registration of said player, allowing his partner to act in consequence.

II.9.10. AWARD DELIVERY - UNEXCUSED ABSENCE:

The trophies and prizes corresponding to the PLAYERS participating in the finals must be collected at the closing ceremony. If the PLAYER's absence is unexcused, he will lose all right to the cash prizes.

II.9.11. RULES OF BEHAVIOR:

The PLAYER must behave in a courteous and polite manner for as long as he remains in any competition (including previous training sessions), even if he is not participating in it or his matches have ended, and respect any person participating in the competition, and may be sanctioned for any any violation of the Code, either in the same tournament (direct disqualification) or through the opening of a disciplinary proceeding.

II.9.12. ENTERING AND LEAVING CENTER COURT: Players must respect a protocol for entering and leaving the court when they play a match. II.9.15. ATTENTION TO THE MEDIA:

PLAYERS must make themselves available to the official WPT media as soon as a match is over. Failure to attend will imply a penalty stipulated in the Discipline Regulation (conditions in PROCEDURES AND PROTOCOLS 2020 - PLAYERS). AVAILABLE FOR THE MEDIA WHEN REQUESTED

II.9.16. OFFICIAL TRANSPORTATION:

The PLAYER must use official transportation in tournaments, except in the case of a PLAYER residing in the place where the competition is held or there are duly justified reasons and prior authorization from the Organization (conditions in PROCEDURES AND PROTOCOLS 2020 - PLAYERS).

III.2.3. TYPES OF DRAW

The Competitions will be made up of draws of Final Rounds (Final Draw), Preliminary Rounds and Pre-Preliminary Rounds. The Competitions will have open Final Round and Preliminary Round. The Final Draw in the men's category will consist of 32 couples in the Master tournaments, 28 in the Open tournaments and in the Challenger tournaments (in the latter, players in the first 16 positions of the WPT ranking will not be able to participate).

In the female category, the Final Draw will consist of 32 couples in the Master and 28 couples in Open and Challenger (in Challenger Tournaments, the players in the first 8 positions of the WPT ranking will not be able to participate).

Final Draw of 32 couples - 28 + 4 (Male and female Master)

- Composition: The first 28 couples by ranking directly classified, of which one can be a WPT wild card (two in Competitions outside Spain), and the 4 winning couples of the quarterfinals of the preliminary round.
- Seeds: 1 and 2 confirmed, 3 and 4 drawn among themselves; 5, 6, 7 and 8, also drawn among themselves and the remaining couples drawn together with the four from the preliminary round.

Final Draw of 28 pairs - 24 + 4 (Open and Challenger male and female)

- Composition: The first 24 couples by ranking directly classified, of which one can be a WPT wild card (two in Competitions outside Spain), and the 4 winning couples of the quarterfinals of the preliminary round.

Seeds: 1 and 2 confirmed, 3 and 4 drawn among themselves; 5, 6, 7 and 8, also drawn among themselves and the remaining couples drawn together with the four from the preliminary round. Heads 1, 2, 3 and 4 will be exempt from playing the first round.

Preliminary Round Draw 16 + 8 (Men's Tournaments) (*)

- Composition: 16 couples classified directly and 8 couples from the Pre-Preliminary Draw.
- Seeds: For this draw, the system of double number of seeds will be established. The couples between positions 29 to 44 (in the Master category) and 25 to 40 (in the Open category and the Challenger category) by ranking will be placed in the round prior to the quarterfinal stages of the Qualifying Round. 8 of these 16 couples will be seeds, and therefore exempt, and will be placed as follows: 1 and 2 confirmed, 3 and 4 drawn among themselves; 5, 6, 7 and 8 also drawn among themselves. A draw will determine how the rest of the couples (8 from pre-preliminary and the remaining 8 from pre-match) will be placed.

Preliminary Round Draw 8 + 8 (Women's Tournaments) ()**

- Composition: 8 couples classified directly (series heads) and 8 couples from the Pre- Preliminary Draw.
- Seeds: For this table, the system of double number of series heads will be established. The couples between positions 29 to 36 (in the Masters category) and 25 to 32 (in the Open category or the Challenger category) by ranking will be placed in the round prior to the quarterfinal stages of the Qualifying Round. These 8 couples will be series heads and will be placed as follows: 1 and 2 confirmed, 3 and 4 drawn among themselves; 5, 6, 7 and 8 also drawn among themselves.
- The 4 winning couples of the quarterfinals of the Preliminary Round will qualify for the Final Draw.

Pre- Preliminary Round Draw

- Composition: Rest of couples not classified by ranking in the Final Draw or in the Preliminary Round Draw, of which a maximum of three in the female category and a maximum of four in the male category can be a wild card (see WILD CARD section) of WPT.
- Seeds: The number of seeds will come as the result of dividing by four the number of couples participating in that level, rounding up or down the power of the two closest to the result of the division. In case of identical proximity, the lowest will always be chosen. In the female modality, for this Round the resulting number of series heads will be doubled (for a maximum of 24 pairs).
- The eight winning couples of the round prior to the quarterfinal stages of the Pre-qualifying round will qualify for the Pre-qualifying round.

(*) (**) In tournaments that are played outside of Spain, the Preliminary Rounds may be carried out either in the same City of the venue, or in Spanish territory, always under the same Regulations stipulated for the Preliminary Tournaments organized in Spain.

Qualifying Tournaments for Competitions Outside of Spain (Local Previews)

The format of this Qualifying Tournament (Local Preliminaries) will only be considered for the Tournaments held outside of Spain, the qualification rounds being played in Spanish territory, in order to define the couple that access the final draw through the received wild-card. It may be held with open or closed draws, as defined by the local Promoter. Participation in them must meet the requirements set forth in point IV.3.2.

At all times, WPT may evaluate, regulate and approve new competition formats for this type of tournament, either proposed by the local Organization or by the Sports Department itself.

III.2.4. MAKING THE DRAWS:

Position of the top two seeds: number 1 will be placed on the top line of the draw and number 2 will be placed on the bottom. The rest of the seeds will be placed in the draw as follows:

- Seeds 3 and 4: their placement will be determined by a draw (in the positions established in the explanatory table). They will not meet 1 and 2 until the semifinal.
- Seeds 5, 6, 7 and 8, if any: their placement will be determined by a draw (in the positions established in the explanatory table). They will not face another seed until the quarterfinals, or each other until semifinals.
- A draw will determine the placement of the rest of couples.
- The same criteria will rule in the Pre-match draws, even though there may be a greater number of seeds.
- The four classified from the Preliminary round who qualify for the Final Draw will raffle their position in the draw, and their positions must be marked by letters (A, B, C and D) in said Final Draw.

The eight couples classified from the Pre-Preliminary Draw will advance to the round of 16 of the Preliminary final draw and will raffle their positions in that draw. Their positions must be marked by letters (A, B, C, D, E, F, G and H) in the Preliminary draw.

III.2.5. DRAWS – GENERAL RULES:

- The top players are seeded on the basis of the WPT ranking.
- To know the total points of a couple for the purposes of determining the seeds, points from both players will be added. The order of seeds will be established according to that value.
- If two couples are tied for points in the classification, the order between them will be decided by a draw.
- The player who does not appear in the classification will be considered as zero points.
- Competitions will be held through the direct elimination system.
- When the couples that make up a draw are not a power of two, the exempt system will be applied to achieve this power in the second round. Those couples that do not need to play the initial round are called exempt.
- To find the number of exempt couples, the total number of registered participants will be subtracted from the power of two immediately higher than that of the registered number. The number 1 seed couple will be exempt in the first place, the second would be the number 2 seed couple, the third exempt, the number 3 seed couple, and so on.
- If, once all the series heads have been assigned, there are even more exempts to assign, the number of exempts pending allocation will be divided into two parts, placing half in the upper part of the draw and the other half in the lower part, filling in the upper part of the free positions that are higher and at the bottom those that are lower. When they are odd, one more will be placed on top.

III.2.6. WILD CARD

In a tournament it is awarded to player or couple that fails to qualify in the normal way, for example by having a high ranking or winning a qualifying stage.

The wild card request. It must be done personally by the couple and always within a maximum period of 5 days prior to the closing of the registration at 12:00 noon, generally, the Thursday before the closing of the registration, unless the closing date had been changed, and it had been published on the Web or APP. The

players must fill in the corresponding application, which will be made available for such purposes for each Tournament, on the Official Website WPT (www.worldpadeltour.com). In order for the request to be registered, it will be necessary to fill in all the "mandatory" fields in the application. In order for WPT to grant a wild card, it must be approved by its Delegate Commission - BOARD (see I.2.), taking into account that it will only be considered for the pre-preliminary and final draw stages.

Once the wild cards have been granted and communicated, the player himself will be in charge of verifying that his registration has been uploaded to the list of registered participants of the corresponding tournament, and the Organization must be notified of any incident before registration closes.

In the Pre-Qualifying Round, WPT may award a maximum of three wild cards in the female category and a maximum of four in the male category (there is no mandatory minimum). In the Female modality, the number of wild cards may increase if the WPT Organization understands that this may be beneficial for the development of the Competition and the Circuit itself (even having the power to raise to 60 in the Open category the maximum number of couples already established in the female modality).

In addition, for WPT Circuit Tournaments outside Spain, WPT has the power to reserve two wild cards for the final draw, so that the Organization can grant one as an invitation, and the other through a Local Qualifying Tournament (or granted to couple No. 1 in the local Ranking).

III.2.7. LUCKY LOSER:

The term applies to a player who loses in the final qualification draw of a tournament, but who, due to the withdrawal of a player in the main draw, takes his place.

Withdrawals must be notified urgently to WPT, by e-mail or any other means that allows it to be confirmed and receives confirmation of receipt by WPT. The Sports Department must also be notified by phone. If in any case the Chief Umpire learns of any withdrawal which has not been confirmed to WPT, an attempt will be made to verify this information, consulting immediately with said Department. If the withdrawal cannot be confirmed, the draws will not vary.

In case of withdrawal, no variations in the formation of the couple will be admitted, which will be out of the competition:

Final Draw Restructuring:

If the withdrawal is confirmed before the start of the first match of the last round of the Preliminary Stage (except in the Preliminary Round for Tournaments held outside Spain), the following changes will be made in the Final Draw:

- If series head No. 1 withdraws, couple No. 2 will take its place, No. 3 will move on to the position left vacant by No. 2, No. 5 will move on to the position left vacant by No. 3, No. 9 will move on to

- the position left vacant by No. 5, and a lucky loser will occupy the position left vacant by couple No. 9.
- If series head No. 2 withdraws, couple No. 3 will take its place, No. 5 will move on to the position left vacant by No. 3, No. 9 will move on to the position left vacant by No. 5, and a lucky loser will occupy the position left vacant by couple No. 9.
 - If series head No. 3 or 4 withdraw, couple No. 5 will take their place, No. 9 will move on to the position left vacant by No. 5, and a lucky loser will occupy the position left vacant by couple No. 9.
 - If series head No. 5 or 8 withdraw, couple No. 9 will take the place left vacant by W.O., and a lucky loser will occupy the position left vacant by couple No. 9.
 - If a non-series head couple withdraws, it will be replaced directly.

If the withdrawal is confirmed after the beginning of the first match of the last round of the Preliminary Round and before the start of the Final Draw, the couple that has withdrawn will be replaced by a lucky loser. In the event that the Lucky Loser replaces an exempt series head, he will have to win his first match to add the ranking points corresponding to that round (in case of defeat, he would only add the points corresponding to the first round).

In the case of not having a Lucky Loser, a WO will be applied.

If the withdrawal is confirmed after the start of the Final Draw, a W.O. will be applied as well.

A draw will take place to decide the lucky loser among the losers of the quarterfinals of the Preliminary Round (the same procedure will be carried out for the Tournaments that take place outside of Spain where said Preliminary Round is played in the same City as the Final Draw).

Restructuring of the Preliminary Round Draws (Women 8 + 8):

When the withdrawal occurs in the Preliminary Round:

- If the withdrawal is confirmed before the start of the last round of the Pre-Preliminary Round (eighths), the procedure will be the same as that explained for the final draw.
- If the withdrawal is confirmed after the start of the last round of the Pre-Preliminary Round (eighths), a W.O. will be applied.

When the withdrawal occurs in the Preliminary Round (Male 16 + 8):

- If the withdrawal is confirmed before the start of the last round of the Pre-Preliminary Round (eighths), the procedure will be the same as that explained for the final draw.
- If the withdrawal is confirmed after the start of the last round of the Pre-Preliminary Round (eighths), a W.O. will be applied.

The lucky loser will be designated by draw among the losers of the knockout stages of the Pre-Preliminary

Round.

Under normal circumstances, the lucky loser draw will take place immediately after the end of the respective round. In order to enter said draw, at least one member of the couple must be present. The Referee will be in charge of carrying out the draw.

In any special situation (inability to carry out the draw, when justified, under the conditions established; preliminary round held in Spanish territory for tournaments held outside Spain, etc.), it will be WPT, who informs the players and establishes the conditions and procedures that must be followed (place of the draw, person in charge of it, etc).

The round of a Competition shall be considered to have begun when the players of any of the matches of said round are already on - court, even if it is in the warm up.

Individual Lucky Loser:

Exceptional situation only contemplated for tournaments held outside of Spain in which the registration deadline is established more than two weeks before the start of the Final Draw:

If one of the players of a couple, who had already signed up and had been classified for the Final Draw (in the course of the time in which the Preliminary Round ended and up to 5 days before the start of the Final Draw), justifies his withdrawal from the tournament, his partner may choose one of the players of a couple that has lost the 1/4 final of the Preliminary draw of the corresponding Tournament (who may accept or reject said invitation). In case of unavailability of said players, a player from the country where the tournament takes place may be chosen (as long as that player meets the minimum participation requirements contemplated in this Regulation and with the approval of WPT), or decline participation in the Tournament (such decision must be informed to WPT, in sufficient time, to carry out the reconfiguration of the corresponding table). From that moment, onwards, WPT will have the power to decide the alternate couple (traditional lucky loser or local couple that meets the aforementioned requirements) or declare the corresponding WO.

In these cases, the process of restructuring the Final Draw will be the same as established in this Regulation.

In any situation regarding the individual Lucky Loser, which is not contemplated in these Regulations, WPT will have the power to assess it and decide accordingly through its Sports Department, always in benefit of a normal development of the Competition.

III.3. SCHEDULE

III.3.1. SCHEDULE STRUCTURE

Men's final draws:

In exceptional situations, WPT may modify this structure in any of its Rounds.

III.3.2. ORDER OF PLAY

The order of play must include at least the day and time or turn of each game. Otherwise, the turns will be indicated by the term "next" and / or "not before" except from the round of eighths of the Final Draw, round from which a Daily Order of Play will be drawn up, which will always be published before 22:00 pm. the day before.

III.3.3. GENERAL PRINCIPLES - TIMETABLES AND ALLOCATION OF COURTS

In clubs with and without outside runaway courts where several matches are played simultaneously, all matches will be played under the same conditions - no outside play. The criteria for the allocation of courts will depend on the organization.

In exceptional cases, the Sports Department may authorize non-compliance with this rule, if it considers that the interests of third parties are not harmed.

The WPT Sports Department (or Tournament Director, when appropriate) may modify the order of play when it deems it necessary for the smooth running of the competition or for reasons deemed convenient and necessary. These modifications must be announced publicly in advance and the affected players informed. The organization reserves the right to modify in these cases the schedule of the matches, the order of play, the courts initially set and even the facilities. In these situations, they may have to play matches on courts without outside play, simultaneously and without chair umpiring.

If any of the couples included in a Final Draw should play two matches on the same day, they will be entitled to the following breaks:

- | | |
|--|----------------|
| - Duration of the 1st match > 2 hours: | 2 hour Rest |
| - Duration of the 1st match between 1 and 2 hours: | 1-1 / 2 h Rest |
| - Duration of the 1st match < 1 hour: | 1 h Rest |

Once these times have elapsed, the WPT Sports Department will be the only one with authority to establish the start time of this second match. In turn, and taking into account special situations, the WPT Sports Department may modify (increase or decrease) these established rest times.

It is the player's obligation to check the game schedule, through the official WPT page, the organization or by other means, without the need for WPT to communicate said schedule or other circumstances.

CHAPTER IV. RULES FOR CLASSIFICATION (RANKING) AND PARTICIPATION IN WPT

IV.1. GENERAL PRINCIPLES

IV.1.1. CLASSIFICATION:

To classify is to place the names of the PLAYERS in the corresponding order in a list or ranking, based on the results obtained by each PLAYER in the 12 months prior to the publication of the classification.

IV.1.2. UPGRADE:

The classification or ranking will be prepared weekly and uploaded on the official WPT website (www.worldpadeltour.com) on Mondays of each week.

Removing the player who communicates his official withdrawal from the ranking:

- When a player with a valid contract officially announces that he is withdrawing from the competition, or for any reason permanently ceases to participate in the WPT Circuit, he will automatically be removed from the Official WPT Ranking. " (approved in BOARD Commission - 02/27/2018).

IV.1.3. SUMMATION SYSTEM:

The classification during the year 2020 will be established by a summation system: the points of 2020 will be added to the points resulting from the year 2019. The points obtained during the 2019 season will be gradually subtracted during 2020 the same week in which the tournament was played in the year 2019.

Once the draw is made, a PLAYER withdrawal from the tournament, will count as zero points for his ranking.

During 2020, WPT will develop a report implementing a series of equivalence tables, in order to study some variations in the scoring system, which may favor various aspects of the competition.

IV.2. TABLE OF POINTS

The score given to PLAYERS based on the round they reach in each competition for the 2020 season is shown in the following table:

IV.3.2. PARTICIPATION IN CLASSIFICATIONS OUTSIDE OF SPAIN

In Circuit tournaments that take place outside of Spain, the local Organization will have the right to organize a Qualifying Tournament to define the couple that accesses the final draw through the received wild card. In such case, the PLAYERS must meet any of the following conditions:

For Men's Category:

- Be a player from the organizing country and be included in the Absolute Official Ranking of the corresponding Association or National Federation.
- In case of request for a wild-card for the Qualifying Tournament, it will be granted with the prior approval of the local Organization (Association or National Federation) and the WPT Sports Department.
- Players from other nationalities than the organizing country may participate if they are not classified among the top 175 positions in the Official WPT Ranking.
- NOT HAVE PARTICIPATED IN ANY OF THE TOURNAMENT CLASSIFICATION PHASES

For Women's Category:

- Be a player from the organizing country and be included in the Official Absolute Ranking of the corresponding National Association or Federation.
- In case of a wild-card application, it will be granted with the prior approval of the local Organization (Association or National Federation) and the WPT Sports Department.
- Players from other nationalities than the organizing country may participate if they are not classified among the top 80 positions in the Official WPT Ranking.
- NOT HAVE PARTICIPATED IN ANY OF THE TOURNAMENT CLASSIFICATION PHASES

The reference of the ranking will be that of the position during the week prior to the WPT tournament.

Given the possibility of new formats in this type of tournament, WPT will have the right to evaluate, regulate and approve any other aspect, requirement or condition that is not contemplated in this Regulation, or carry out a new assessment of the existing ones.

IV.3.3. PLAYERS WHO DO NOT MEET REQUIREMENTS:

All those players who do not meet at least one of the above requirements must request their participation in writing to WPT through the registration form located on the official WPT website, being in the latter's judgment granting authorization to register and participate in any of the tournaments on the official calendar.

IV.4. PROTECTED RANKING

IV.4.1. GUARANTEES

The protected ranking is a system that is established solely to guarantee certain PLAYERS who use this system a certain position for the purpose of the draws in Tournaments.

IV.4.2. REQUIREMENTS

The protected ranking may be requested by those players who have suffered an injury, which has kept them out of the competition for more than four months, or have suffered a temporary withdrawal (pregnancy or illness) and are included at the time of injury, in the Official WPT Ranking (Male and Female).

The injury must be duly accredited by a medical report or certificate (WPT may require any additional information it deems appropriate, in order to prove the corresponding injury or illness).

IV.4.3. REQUEST

The player who wishes to take advantage of this system must send a written request to the WPT technical committee (competicion@worldpadeltour.com), requesting the benefit of this regime and attaching the corresponding medical certificate, where the type of injury and the treatment to follow are stated.

IV.4.4. CONDITIONS

Once the protected ranking has been granted to the player, this ranking will be maintained for the first five tournaments for a maximum of five months following his return to the circuit when the absence is less than one year. If the absence exceeds one year, the protected ranking will be maintained for seven tournaments in a maximum of seven months.

The player must formally notify WPT of the date of his return to the competition, and if he meets the requirements established for its application (IV.4.2), he will begin to use the protected ranking from his first comeback tournament. Tournaments must be consecutive, provided they are Open or Master. In the case of the Challenger, the player will be able to choose whether or not to benefit from the protected ranking, and must notify the Sports Department before registration closes. If the affected player had not given

notice of his wish to join the protected ranking in a Challenger tournament, the Organization will apply it and it will count as a Tournament.

For the Master Final, the player will not be able to take advantage of the Protected Ranking (so in under no circumstance will it be counted as a tournament).

To qualify for the protected ranking, the injured player must reappear in a WPT tournament within a year and a half (18 months) from the date of the injury.

IV.4.5. APPLICATION AND EFFECTS

For the application of the protected ranking, the ranking position will be taken at the time of the injury. In this way, for the purposes of the draw for the competition, the PLAYER who enjoys the benefit of the protected ranking will be awarded the same number of points as the PLAYER who, according to the WPT ranking in force at that time (registration closing), occupies the same position that the PLAYER with protected ranking occupied at the time of his injury.

The protected ranking will only display its effects in relation to the draws of the positions in the competition draws. In this way, the PLAYER included in the protected ranking will appear, for all other purposes, in the official WPT ranking in the position that his real points give him, and not in the position he had at the time of the injury.

Any situation or incident that occurs in relation to the Protected Ranking, not contemplated in these Regulations, will be treated and decided accordingly by the WPT Executive Committee

CHAPTER V. MASTER FINAL REGULATION

V.1. GENERAL PRINCIPLES

V.1.1. PARTICIPATION

- Male category: 16 players per WPT ranking order.
- Women's category: 16 players per WPT ranking order.

A PLAYER who withdraws before the start of the Master Final will be replaced by the one immediately after the last classified (see deadlines). Example: if the the player in position 9 withdraws, player 17 will be included in the ranking. And so on, until the total number of players has been completed.

A draw (which will take place at the WPT offices) will decide which players take part in the Master Final in the event of a tie in points of one or more players in the 16th position.

In order to solve any incident regarding possible player injuries, once the list of participants has been

defined, two alternates will be summoned for each modality (both, according to their ranking, will be positioned immediately after the players already summoned). Taking into account the particularities of each edition, a specific Regulation will be prepared for the Master Final, where all the special aspects of the competition will be collected, which will be made available to the participating players.

V.1.2. RANKING

The Ranking that will be used for the classification of the Master Final will be the update immediately prior to the dispute of the Master Final, without including the points corresponding to the Final Master of the previous year, respecting current regulations. For the Master Final, the player will not be allowed to rely on the Protected Ranking.

V.1.3. COMPOSITION OF COUPLES

The PLAYERS themselves will decide which other qualified PLAYER they will play the Master Final with. They must communicate in writing to the WPT the names and surnames of those players within the period indicated, otherwise it will be the WPT who will decide on the players that will form a couple.

V.1.4. COMPETITION DRAW:

- The ranking that will define the couples that qualify to participate in the Master Final will be published once the WPT tournament calendar for the season has ended.
- The date for the celebration of the draw will be communicated to the players through the APP with sufficient notice.
- The competition format will be defined by a qualifying round in a table of 8 couples.
- Series heads: 1 and 2 confirmed, 3 and 4 drawn among themselves; 5, 6, 7 and 8 also drawn.

V.1.5. ORDER OF PLAY:

- Two quarterfinal matches will be played on the first day of competition. The other two quarterfinal matches will be played on the second day. The semifinals will be played on the third day and the final on the fourth.
- The matches will be played to the best of three sets, with a tie-break in all of them and a Gold Point system. For the change of balls, rule III.1.2 will be applied, the same criteria as that established for the rest of the tournaments.

All the matches played must comply with the Game Rules of the International Padel Federation and the provisions of these Rules.

V.1.6. MASTER FINAL AVAILABILITY:

Those players classified to play the Master Final must be available two weeks before the end of the Master for some events related to the competition. Those players who must travel from their place of residence will be paid travel, food and subsistence allowances, as long as their place of residence is Spain, except

when these events are held the same week of the tournament.
